

## Heron Hill Primary School: Curriculum Overview

### History

At Heron Hill School children are encouraged from a young age to talk about past and present events. They are given time to develop questioning, reasoning and describing skills. From Year 1 to Year 6 children cover a range of topics that are suggested by the National Curriculum.

We aim to enthuse the children by providing a hands on approach to History teaching. It is made relevant to children by making links to our local area where possible. Most of the History curriculum is delivered through other subjects such as Art and English, however the focus is made on the teaching of historical skills through an enquiry based approach to learning.

At Heron Hill we pride ourselves with the opportunities the children have to visit museums, churches, castles and places of interest that promote a greater understanding of history.
